Profile

I began my career in the insurance industry in sales before transitioning to a Project Officer role in banking. During my time in banking, I discovered a passion for coding, which led me to pursue a career in software development. I completed an intensive 8-month program at the CSTAD Institute, where I honed my skills in developing REST APIs using the MVC pattern as a Spring Developer

Work Experience

2024 - Present
Wing Bank

Back End Developer

- Develop and maintain APIs for banking and eCommerce systems
